

# Learn to Touch Type *in just* **90** minutes

**KAZ Learn to Touch Type in just 90 minutes can save your company more than £3000\* over the course of just ONE year!**

*(and if you think that sounds good, try multiplying £3000 by your number of staff)*

## **KAZ Type - Saving YOU Time and Money by increasing YOUR PRODUCTIVITY**

Deploying KAZ across your organisation will equip your staff with fast and accurate typing skills. KAZ has delivered some impressive results.

Our research shows that up to 95% of employees waste time and focus 'hunt and pecking' at their keyboard. Learning to touch type correctly enables them to work faster, smarter and with much less stress.

KAZ's ability to teach the A-Z keys in just 90 minutes\*\* encourages take up and completion of the course - *but don't take our word for it* - try it for free! (subject to status).

KAZ has been selected by: Learn Direct, The Open University, Global Businesses, Government Departments, Schools, Colleges, Universities and Private Individuals around the world.

\*Based on an average PC user typing speed of 27 words per minute plus typing errors. Actual saving is £3,340 over the cycle, based on an average of 3 hours typing a day. Estimated average saving based on increase in typing speed and reduction in errors. Free ROI trial for qualifying organisations. Data provided by KAZ Type Limited.

\*\*Our tests have shown that the majority of users complete the A-Z keys section in 90 minutes or less. However, this is not guaranteed and some individuals will take a little longer. KAZ is structured so individuals can work at their own pace. Allow an average of 4 hours plus practise to complete the entire course - including the rest of the keyboard.
